2023 – Issue 6

Let's Talk About Cats!

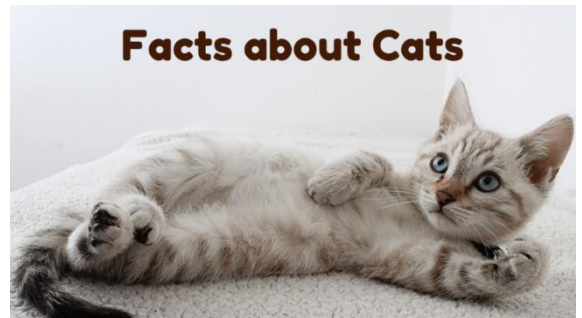

Everyone has heard the comment...
Cats own us; we do not own them.

This, my friends, is very true. Cats are not dogs. They rarely beg for our attention, commonly amuse themselves, have a mind of their own and don't like to be told what to do. They have a unique way of intriguing us and making us "their" humans. So, the month of June is devoted to them!

Interesting Feline Facts

- Cats do not have sweat glands.
- Cats can rotate their ears 180°
- The oldest cat to live on record was 38 years and 3 days.
- A cat can jump as much as seven times its height.
- Cats cannot taste sweetness.
- The heaviest domesticated cat on record weighed 46.8 lbs
- A pack of adult cats is called a clowder.
- An adult cat can run about 12 miles per hour and can sprint at nearly thirty miles per hour.
- A cat's tongue is rough because it's lined with papillae—tiny elevated backwards hooks that help to hold prey in place.
- The nose pad of each cat has ridges in a unique pattern not unlike a person's fingerprints.
- Cats' bodies are extremely flexible; the cat skeleton contains more than 230 bones.
- There are 30-40 MILLION community cats in the US as of 2020.
- The average lifespan of an indoor cat is 15 years, while the average lifespan of an outdoor cat is 6 years.

Did you know....

Your companion will live a longer, healthier life and you will experience fewer headaches if you get them spayed or neutered!

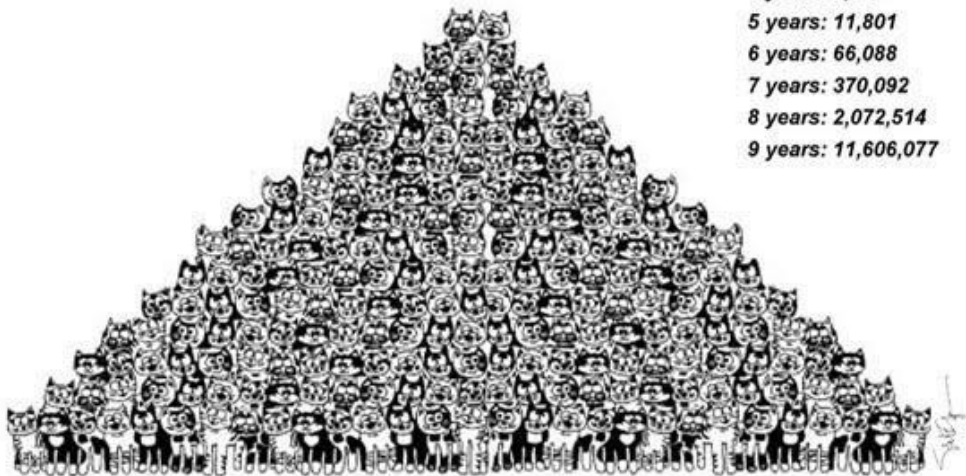

Spaying & neutering reduces or eliminates:

- The odds of breast cancer and dangerous uterine infections in females and prostate problems and testicular cancer in males.
- Frustration in resisting the natural urge to mate. Your companion will be less distracted, more easily trained and a more content member of your family.
- The animal's need to roam in search of a mate decreases the chances that your pet will become lost, get into fights with other animals or hit by a car.
- No messy heat cycles in females that attract unwanted males.

An unspayed female cat, her mate and all of their offspring, producing 2 litters per year, with 2.8 surviving kittens per litter can total:

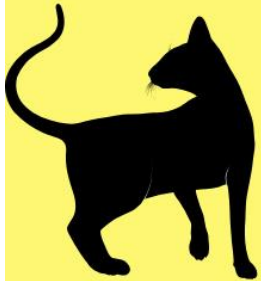

*1 year: 12
2 years: 67
3 years: 376
4 years: 2,107
5 years: 11,801
6 years: 66,088
7 years: 370,092
8 years: 2,072,514
9 years: 11,606,077*

Flanary Vet Boarding

Let us spoil them like they are on vacation!

**NOW AVAILABLE- Puzzle Toys, KONG Treats,
and other Anxiety Reducing Activities!**

Going on vacation this summer? Let your pets board with Flanary Vet Clinic! We take pride in caring for your pet as if they were our own. You can be confident that they are receiving the care that they deserve, and you demand. While we are making sure that they are happy and comfortable, we will also make sure that they stay healthy and safe. FVC offers cat condos and spacious dog runs, which are both climate controlled, and two outside fenced in "play areas." Pets are always supervised when outside and never allowed with other pets unless they are "family."

For all boarding reservations when your dog boards overnight, they can receive a bubble bath before going home at 20% off! We also provide play or snuggle time daily as well as texting you a photo of your pet during their stay with FVC. We also offer TREAT TIME with our Pupmuffin or CLaudia's Canine Cookies as well as Puzzle Toys, KONG Treats, and other anxiety reducing activities! Let us give your fur baby some extra loving's while you're gone. We love to spoil them!

Product Spotlight

Solensia™ - A new arthritis management option for our feline friends! It is the first and only once-monthly, FDA-approved treatment to control osteoarthritis (OA) pain in cats.

Meet my 19-year-old barn kitty Mickey Mouser. He had been having severe issues with arthritis, until I tried this new arthritis injection, and now he is moving much better around the cow lot!

- It's the only feline parasiticide with broad-spectrum protection that includes tapeworm protection.
- Easy-to-apply topical solution provides a month of protection.

- Safe for use in kittens as young as 8 weeks, weighing

1.8lbs or more

The Hill's to Home program will now deliver top quality food to your door!

Call us at 270-898-9738 for details on how to get 30% off your first order.

CLINIC UPDATE

It has come to our attention that we are currently about the only local veterinary clinic accepting same day/sick appointments. We strive to take the best care of our patients and clients, and to meet your needs as they arise.

Please note that while ***we will be accepting same day/sick appointments- these will be scheduled as curbside or drop off appointments.*** Your pet will still be receiving the same level of care & compassion that we always provide, and you will still get to see Dr. Ferrell or Dr. Flanary. We will still answer all your questions & address any concerns you have. With only 3 exam rooms inside that are scheduled weeks in advance, curbside appointments will still be utilized. There are many days that my staff & I work through lunch, and 10+ hour shifts to get our clients & patients taken care of, so we ask that you be patient with us, as we work you & your pet in best we can. We understand the stress, anxiety, and inconvenience of waiting at a doctor's office all day with a sick pet- That is why we still offer drop off appointments as well as the curbside service. ***We are working as fast and as efficient as possible to get your pet cared for in a timely manner- so bear with us and be kind. Your sick/injured pet matters to us and we make them a priority!***

EMERGENCY AFTER HOURS CALL

Lots of people are asking about what to do if their pet has an emergency after hours. It's simple! Just call our clinic at 270-898-9738 and listen to the message. At the end of message, hold on the line and an answering service representative will talk to you and forward you to the veterinarian on call.

Flanary Veterinary Clinic, Paducah Veterinary Clinic, Coffee Memorial Animal Clinic, Progressive Animal Clinic and River's Edge Veterinary Clinic have joined

in a partnership to see all of OUR clients for emergencies here LOCALLY. We are NOT referring pets to Clarksville/Nashville unless your pet has a condition that is best treated there.

We all know there is a feral cat problem in Western KY. Please help by spaying and neutering the cats in our area. This month is the time to do it! It also seems like lots of cats are needing vaccines so now is the perfect time to take advantage of our cat vaccine special & get them vaccinated, examined, and dewormed at a great deal!

Please enjoy these pictures of my cats and become my friend on Facebook so you can see more!
