

taking x-rays, checking her urine, and checking her heart with an EKG machine I know what her "normal" values and issues are. By having a "baseline" for her I am able to help determine what is different, and in the future, what we need to do to help her if anything changes with her health.

## Your Pets Senior Card and Senior Testing

<b>FLANARY VETERINARY CLINIC</b> <b>SENIOR CITIZEN CARD</b> for <b>ELLIE FLANARY</b>					
<b>GHP</b> (Blood panel) \$83.25	<b>CBC</b> Complete Blood Count \$39.50	<b>EKG</b> \$45.00	<b>URINALYSIS</b> \$39.75	<b>X-RAYS</b> \$95	<b>THYROID</b> \$45

This is the senior card we give to your pet which has six tests or procedures on it that are all important for your pet's health as he/she ages. All tests can be done at

different visits. If all senior tests are done at the same visit then the cost is \$249.00 in October which saves you \$92.35

- ✓ GHP (blood panel): This is an extremely useful tool at looking inside your pet's body. It detects liver, kidney, and gall bladder problems, checks protein levels and also checks for diabetes. Many problems can be found and treated before the pet ever shows signs or gets sick.

- ✓ CBC (complete blood count): This is another blood test that is very useful. It detects anemia, infections, clotting disorders, and more.
- ✓ Urinalysis: Testing the urine of your senior pet can find problems such as urinary tract infections, bladder crystals/stones, diabetes, and kidney problems.
- ✓ Thyroid test: Many senior dogs develop hypothyroid disease and may or may not show signs. Advanced stages can cause hair loss, anemia, inactivity, weight gain, and many other problems. Senior cats can develop hyperthyroid disease, in which they tend to ravenously eat and still become very skinny. Many complications can occur including high blood pressure and heart problems. Thyroid tests are easily done by drawing a blood sample.
- ✓ EKG: Checking the heart for abnormalities can be found by simply placing 3 small painless probes on your pet for just a few minutes.
- ✓ X-rays: Taking an internal “picture” of your senior pet’s chest and/or abdomen can look at the size of the heart and can sometimes see cancerous growths or masses. X-rays of the bones can see arthritis or degenerating bone. Your pet may have an individual need that needs to be assessed.

outside fenced in "play areas." Pets are always supervised when outside and never allowed with other pets unless they are "family."

For all boarding reservations, when your dog boards overnight they can receive a bubble bath before they go home for 20% off!

To make the hardship of being away from your pet a little easier we will text you a photo of your pet during their stay with FVC.

Your pet will also receive one round of playtime or snuggle time once per day during their stay with us. We offer additional Peanut butter Kongs, puzzle toys, or additional play or snuggle time for \$5 per day. Let us give your furbaby some extra loving while you're gone- We love to spoil them! Treat time is still available as well and can be upgraded to our Gourmet Claudia Cuisine Cookies!

It's that time of the year!!! Please join the Flanary Veterinary Clinic

Team and help support us in our quest to end Alzheimer's. My Mom passed away in 2019 and as you all know-SHE IS WHY I WALK!!!! So please give me your support and join our team today!! All those registered will receive community awareness flags to help

bring excitement and awareness to their neighborhoods as they walk. Please make sure you are registered as soon as possible to our team and donate if you can- it would be greatly appreciated!!

**My Mama is who gave me my love of animals and made me the woman I am today. If anyone would have had to go through what we went through the last few years of her life, you would understand why we need to end Alzheimer's today.**

Link to our team page:

**All proceeds from nail trims will be donated to the Walk To End Alzheimer's in honor of Dr. Flanary's mother**

**This is will be listed as "Charitable Contribution" on your invoice if you received a nail trim.**

**Come by and get your pets nails trimmed and help raise money for Alzheimer's Association until October 18th!**

her. We wanted to show everyone that we were not afraid, and that the diagnosis was not going to keep us from living each day.

This disease has taken the mom I knew but it will not steal the legacy of her love. She taught me to never give up and to fight for those who do not have a voice. I know this disease has changed our story, but I also know that God will use this for good. That is why I am here today because God wants me to bring awareness to this dreaded disease and support other families like mine.

I would like to officially introduce the newest addition to the Flanary Family.... "Izzy Be My Baby" aka IZZY! My heart is so full!
